Flint: Understanding the Unacceptable
A Conversation about Politics, Power & Polluted Drinking Water

Grab a healthy snack and join Dr. Daniel Van Abs (Human Ecology Department) and other Rutgers faculty to have a discussion about what happened in Flint, Michigan, what it says about government in the U.S., and what it means for safe drinking water everywhere.

Monday, February 22nd, 2016, 2:00-3:00 pm
Harvest Café in the
Institute for Food, Nutrition & Health
Cook Campus

Organized by the
Department of Human Ecology, SEBS
